STAT

Area of Coverage: China - T'ai-yuan, Shansi Province; Chinchow, Liao-tung Province; Pei-p'iao, Jehol Province; Honan Province

Subjects Covered: Drafting of plans and engineering plans for capital construction; implementation and inspection of construction plans.

Scholarship Evaluation: Elementary lessons on capital construction for workers in the Industrial Department of the Ministry of Fuel Industry.

Review: Divided into four sections. Section I consists of directives, decisions, and announcements of the Government Administration Council and its Committee of Finance and Economics regarding the 1951 plans for capital construction. Section II consists of editorials, articles, and a report of the Ministry of Heavy Industry on the investigation of capital construction in factories and mines of Northeast and North China. Section III deals with mistakes made in planning and implementing capital construction plans. Section IV deals with the elimination of past errors in planning.

Section II of this book is noteworthy for pointing up the weaknesses in industrial planning and the deficiencies in engineering which resulted in waste and work stoppage.
